## **From Daily Cleanliness You Discover Everyday Wellness**

TOTO toilets are a vital part of life for millions of people around the world. The comfort and ease that arise from daily hygienic cleansing with water fill people's lives with a profound sense of wellness.

Exquisite craftsmanship ensures trust in reliability and effectiveness. Inviting designs and features that are considerate of individual needs encourage relaxation in body and mind.

Advanced technologies and materials maintain sanitary conditions and support a sustainable use of resources.

TOTO toilets bring harmony and everyday wellness to life.

## BENEFITS & TECHNOLOGIES

### WELLNESS

-  AIR-IN WONDER WAVE
-  CEFIONTECT
-  TORNADO FLUSH
-  EWATER+
-  ACTILIGHT
-  AIR-IN WONDER WAVE

### CLEANLINESS

-  SELF CLEANING WAND
-  PREMIST
-  RIMLESS
- REAR CLEANSING
- REAR SOFT CLEANSING
- FRONT CLEANSING
- WIDE FRONT CLEANSING
- OSCILLATING CLEANSING
- PULSATING CLEANSING
- HYBRID ECOLOGY SYSTEM
- CLEAN MATERIAL

### SUSTAINABILITY

-  EWATER+
-  WATER SAVING
- AUTO ENERGY SAVER

### HOSPITALITY

-  AUTO OPEN / CLOSE LID
-  AUTO FLUSH
-  DEODORIZER
-  HEATED SEAT
- SOFT LIGHT
-  WARM AIR DRYING
- WAND POSITION ADJUSTMENT
- WATER PRESSURE ADJUSTMENT
- BACK-UP MANUAL FLUSH

### DESIGN

# NEOREST NX

Exquisite craftsmanship produces the elegance of organic artisan sculpture and advanced technologies offer the highest hygienic standards. The pinnacle of integrated toilet design.

# NEOREST LE

Within the linearity of this unique form resides a sense of softness that stimulates relaxation. Simplicity reveals the depth of harmony.

UNIVERSAL DESIGN

# NEOREST DH

Minimalist design is smartly inviting and attractive in spaces of all shapes and sizes.

The lustrous lid highlights the elegant curves.

The refined ceramics texture gives elegance to the curvaceous silhouette.

Spacious and with rising curvature toward the rear, the seat achieves unparalleled comfort.

Beautifully refined illumination ensures ease of use even in the dark.

Exquisite from every angle.

Smooth form with clean lines and beautiful proportions.

NEOREST AH

NEOREST RH

Design of the remote control is elegantly minimalist.

Flat seat free of undulating and extruding surfaces.

Straight lines yield a design that harmonizes with a wide variety of spaces.

Softly rounded form accentuates the space.

The precise, pleasant,  
air rich stream  
keeps you clean.  
And it's always  
pleasantly warm.

**AIR-IN WONDER WAVE**

AIR-IN WONDER-WAVE is a technology that uses air rich water droplets to produce a more comfortable washing sensation and deliver more thorough cleansing with less water consumption. Even more, water is warmed instantly as needed, so you need never worry about running out of warm water.

Cycle of Cleanliness and Comfort

Every moment of every day, the experience of life arising clean, comfortable and always inviting.

Constantly at work, automated technologies maintain hygienic conditions, keeping surfaces clean and providing a place that is inviting and comfortable.

Your toilet reappears  
clean anew every time.

CEFIONTECT

TOTO TOILET TECHNOLOGIES:  
**CLEAN SYNERGY**

24H 365DAYS

TORNADO FLUSH

EWATER+

Ultra-smooth ceramic  
leaves nowhere for  
waste to cling.

**CEFIONTECT** is an ultra-smooth ceramic glaze that coats the toilet bowl. Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, **CEFIONTECT** is designed for enduring beauty and cleanliness.

Enlarged sectional image of toilet surface

**Eliminating the microscopic gaps where waste hides**

Conventional ceramic may appear perfectly smooth to the eyes, but has gaps where waste, mold and bacteria hide. At just one millionth of a millimeter, **CEFIONTECT**'s surface ridges are much tinier than waste particles.

**What makes CEFIONTECT so durable?**

Glass layers are burned onto conventional glaze, making **CEFIONTECT** an extremely durable material.

CEFIONTECT toilet micrograph \*1µm=0.001mm

**Water has a strong affinity to CEFIONTECT**

Hydrophilic describes organisms and materials that attract water. **CEFIONTECT** is hydrophilic. Water spreads easily over the toilet bowl, so waste particles easily wash away.

Water hydrophobic

Water hydrophilic

24H 365DAYS

360° cleaning power reaches every spot using less water.

**TORNADO FLUSH**

24H 365DAYS

**TORNADO FLUSH** not only cleans more effectively, it does so quietly using less water. Powerful streams of water merge and swirl 360 degrees, washing every spot inside the **RIMLESS** toilet bowl.

**Powerful washing where waste accumulates most easily**

TORNADO FLUSH's dynamic waterjet discharges from near the front of the toilet bowl, travels in a narrow channel along a hairpin curve, and with sustained water pressure thoroughly cleanses the areas where waste accumulates most easily—and then washes the entire bowl clean. Exquisitely high-quality ceramic makes this innovative design possible.

**RIMLESS**

The unique **RIMLESS** design not only leaves no place for waste and germs to hide. It also makes for a much easier to clean toilet.

Electrolyzed water  
removes waste, even  
bacteria you can't see.

**EWATER+ is a type of antibacterial water that sanitizes the wand and toilet bowl where waste and bacteria tend to accumulate and produce stains that can become permanent. Using no chemicals or cleaning agents, EWATER+ provides peace of mind every day that microscopic bacteria has no place to hide.**

Survey: Study the effectiveness of EWATER+ by comparing the state of cleanliness of toilets that receive no cleaning versus toilets that are self-cleaned with EWATER+. No additional cleaning was allowed. Survey period: One month (Feb. - Mar. 2017). Subjects: Families of four. \*Results vary according to usage and environmental conditions. All data collected by TOTO.

**How EWATER+ cleans**

**What is EWATER+?**

Produced by electrolysis of the chloride ion in tap water, EWATER+ is a highly effective sanitizer. It is completely free of chemicals and cleaning agents. Over time EWATER+ returns to its original state of ordinary water, making it completely environmentally friendly.

UNIVERSAL DESIGN

Photocatalytic glaze,  
the ultimate cleaning technology,  
has the natural power to  
decompose waste.

**ACTILIGHT** elevates toilet cleaning to an extraordinary new dimension. Comprising a bacteria-neutralizing ultraviolet light and a titanium dioxide-fired toilet bowl, this extraordinary technology initiates a photocatalytic process that breaks down even microscopic waste particles.

**State-of-the-art materials**

Titanium dioxide attracts water to the surface of the toilet bowl, setting the stage for photocatalysis. The toilet bowl's photocatalytic glaze layer also contains zirconium oxide, which provides its extreme durability.

**Operates 24 hours a day to maintain hygienic conditions**

The photocatalytic process with UV light and titanium dioxide produces Activated Oxygen from the ambient oxygen and water molecules, which further breaks down organic waste and reduces the food source that microbes feed on.

The wand washes itself inside and out with EWATER+ to maintain hygienic conditions.

SELF CLEANING WAND

by EWATER+

24H 365DAYS

Before and after each use, the wand automatically sanitizes itself with antibacterial EWATER+. This thorough cleaning occurs inside the wand as well as all around the exterior. Even when the toilet is not being used, the wand periodically cleans itself to ensure constant hygienic conditions.

Survey: Study the effectiveness of EWATER+ by comparing the state of cleanliness of wands self-cleaned with EWATER+ versus those that are not. No additional cleaning was allowed. Survey period: Two months (Sep. - Oct. 2017). Subjects: Families of four. \*Results vary according to usage, environmental conditions, and product type. All data collected by TOTO

Self-cleans inside and out with EWATER+

Self-cleans inside with EWATER+

Always Keeping Conditions Clean

Made of high-quality waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it. Though the wand is self-cleaning, you will appreciate how easily you can reach it and wipe it spotless.

Ultra-powerful water conservation.  
Flushes waste completely every time — no matter where the toilet is located.

**HYBRID ECOLOGY SYSTEM**

**HYBRID ECOLOGY SYSTEM** combines two innovative water streams—one from the plumbing system and one from a small tank inside the toilet—to maximize flushing efficiency. Using minimal water, **HYBRID ECOLOGY SYSTEM** is so effective at removing waste that a second flush is never required. What's more, the flushing power remains strong regardless of how high up in a building the toilet is located.

**CLEAN SYNERGY** means eco-friendly

CLEAN SYNERGY technologies offer a sustainable way to maintain sanitary conditions inside your toilet. Since waste does not accumulate and create stains, there is less need for manual cleaning with detergents.

**Sustainable cleaning**

WASHLET sprays the non-porous ceramic bowl with EWATER+, TOTO's proprietary antibacterial water, to help prevent the buildup of microscopic waste. Free of chemicals and cleaning agents, EWATER+ returns to the water cycle as pure H<sub>2</sub>O.

**AUTO OPEN / CLOSE LID**

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

**SOFT LIGHT**

Subdued lighting switches on when the toilet is approached, so users do not have to disturb themselves at night with a bright bathroom light.

**HEATED SEAT**

The moment you approach the toilet, the seat begins rapidly warming to a comfortable temperature.

**DEODORIZER**

Highly effective deodorizing automatically takes places inside the toilet bowl both during and immediately after use, leaving no disturbing odors.

**AUTO FLUSH**

No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.

TOTO  
WASHLET

washlet®

Life-changing. That's how people describe the experience of using WASHLET for the first time. Once you discover the soothing comfort and sense of well-being that comes from cleansing yourself with a hygienic stream of water, you cannot imagine going back to just using toilet paper.

WASHLET and "WASHLET logo" are trademark or registered trademark of TOTO LTD.

# WASHLET™.

## Life-changing technology that brings wellness to life.

Launched in 1980, WASHLET began a revolution. It was a concept so innovative and so intelligently designed that it reinvented the way people perform the most vital daily ritual of the day. WASHLET introduced the custom of cleansing washing to a world that had long relied on the less sanitary and far less comfortable method of wiping with toilet paper. Beyond the hygiene, this life-changing product brings a sense of harmony and wellness to daily life. By 2015, over 40 million units had been sold. In 2017, WASHLET was ranked the No. 1 spray seat brand in the world. Today, with focus on wellness, TOTO continues to develop advanced new technologies for WASHLET.

The precise, pleasant,  
air rich stream  
keeps you clean.  
And it's always  
pleasantly warm.

## AIR-IN WONDER WAVE

AIR-IN WONDER-WAVE is a technology that uses air rich water droplets to produce a more comfortable washing sensation and deliver more thorough cleansing with less water consumption. Even more, water is warmed instantly as needed, so you need never worry about running out of warm water.

### CLEANSING SPRAY PATTERNS

Large air-filled water droplets offer complete cleansing and a comfortable sensation with minimal water use.

Plentiful shower of water gives a gentle sensation for complete cleansing over a wider area.

Gentle dispersion of large water droplets ensure intimate cleansing in the most comforting way.

Shower of small water droplets reaches a wider area giving a gentle coddling sensation to sensitive skin.

**Oscillating  
Cleansing**

The back-and-forth movement of the wand ensures thorough cleansing of the entire area.

**Pulsating  
Cleansing**

Rhythmically pulsating stream of cleansing warm water.

**Wand Position  
Adjustment**

You can easily set the wand position according to your preference.

**Water Pressure  
Adjustment**

Select from five levels of water pressure.

Beautiful fit and pairing of the toilet bowl and seat.  
A further evolution of clean design.

Smooth gap-free design produces no shadows.

Simply attractive even when the lid is open.  
Free of unnecessary pieces, the smooth,  
even design ensures easy cleaning.

Electrolyzed water  
removes waste, even  
bacteria you can't see.

  
**EWATER+**  
24H 365DAYS

**EWATER is a type of antibacterial water that sanitizes the wand and toilet bowl where waste and bacteria tend to accumulate and produce stains that can become permanent. Using no chemicals or cleaning agents, EWATER+ provides peace of mind every day that microscopic bacteria has no place to hide.**

Survey: Study the effectiveness of EWATER+ by comparing the state of cleanliness of toilet bowls that receive no cleaning versus toilet bowls that are self-cleaned with EWATER+. No additional cleaning was allowed. Survey period: One month (Feb. - Mar. 2017). Subjects: Families of four. \*Results vary according to usage and environmental conditions. All data collected by TOTO.

**What is EWATER+?**

Produced by electrolysis of the chloride ion in tap water, EWATER+ is a highly effective sanitizer. It is completely free of chemicals and cleaning agents. Over time EWATER+ returns to its original state of ordinary water, making it completely environmentally friendly.

 **PREMIST**

PREMIST automatically sprays water over the surface of the inner toilet bowl before every use. Due to the ceramic's hydrophilic nature, waste washes away more easily.

The wand washes itself inside and out with EWATER+ to maintain hygienic conditions.

SELF CLEANING WAND

by EWATER+

24H 365DAYS

Before and after each use, the wand automatically sanitizes itself with antibacterial EWATER+. This thorough cleaning occurs inside the wand as well as all around the exterior. Even when the toilet is not being used, the wand periodically cleans itself to ensure constant hygienic conditions.

Survey: Study the effectiveness of EWATER+ by comparing the state of cleanliness of wands self-cleaned with EWATER+ versus those that are not. No additional cleaning was allowed. Survey period: Two months (Sep. - Oct. 2017). Subjects: Families of four. \*Results vary according to usage, environmental conditions, and product type. All data collected by TOTO

Antibacterial self-cleaning inside the mechanism, too

Always Keeping Conditions Clean

Made of high-quality waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it. Though the wand is self-cleaning, you will appreciate how easily you can reach it and wipe it spotless.

**CLEAN MATERIAL**  
High-quality resin repels waste and dirt and resists staining, keeping surfaces clean.

# BATHTUB

## ZERO DIMENSION

Afloat, calm,  
immersed in the meditative moment of relaxation.

Ankle joint angle  
108(±5)deg

Knee joint angle  
138(±7)deg

Hip joint angle  
133(±9)deg

### The posture of an astronaut resting in space

ZERO DIMENSION bathing brings freedom from gravity,  
releasing stress on joints and encouraging ultimate relaxation.

### The brain in a state of tranquility

Research has shown that the ZERO DIMENSION bathing posture  
reduces activity in the part of the brain that houses the language function.  
This is the reason Zero Dimension bathing feels calming and relaxing.

UNIVERSAL  
DESIGN

Exclusive features make every bath a luxurious occasion.

### NECK BATH

With variable pillow positions ensuring stability, people of all body shapes can enjoy the warmth of the bath from above the shoulders to the neck.

### AIR-JET

Fluctuating streams of air bubbles rise from below and envelop the body with a soothing sensation.

### LED LIGHTING

In the outer perimeter of the tub's base, LED LIGHTING supplies a dream-like ambience.

### GALALINE MATERIAL

Offering outstanding durability, the tub is made of GALALINE artificial marble and constructed using TOTO's innovative sandwich configuration.

### CONTROLLER

The electrostatic CONTROLLER is operated by the slightest touch.

**RECLINE COMFORT**

**Nestled in comfort, feel your body and mind release into a state of tranquility.**

The weight of the head releases onto the headrest, the body receives the sensation of a comforting embrace. The natural S-curve of the spine is maintained all along the neck and down the back, encouraging deep release. This position provides a deep sensation of ease and tranquility. It is a bathing experience that brings relaxation beyond expectations.

## Bathing position comparison

### ZERO DIMENSION

The posture of an astronaut resting in space ZERO DIMENSION bathing brings freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.

### RECLINE COMFORT

### CONVENTIONAL

The weight of the head releases onto the headrest, the body receives the sensation of a comforting embrace. The natural S-curve of the spine is maintained all along the neck and down the back, encouraging deep release. This position provides a deep sensation of ease and tranquility. It is a bathing experience that brings relaxation beyond expectations.

In a conventional bathtub, the low water height and a rounded low back make complete relaxation difficult to attain. The shoulder and neck area do not receive warmth from soaking and the bathing position can feel tight and cramped.

### COLOR

You can choose between a high-gloss finish that looks like ceramics or a matte finish with a subdued texture.

# FITTINGS & SHOWERS

## ***I chose TOTO.***

*Everyday items should be chosen with care. Because they care for you tomorrow.*

*"Exquisite designs that catch the light."*

*"Products that blend into the space."*

*"A truly refreshing bathe."*

*"Quality I can depend on."*

# Shower and faucets for the space you dream of.

"I found the item I wanted, so *I chose TOTO.*"

## Pursuing a lineup that makes you want to choose.

What's important to you? The promise of comfort-enhancing performance? Beautiful design that speaks to the heart? The sense of assurance you get knowing a product will perform reliably for a long time? TOTO's new lineup has all these things. A lineup that gives the pleasure of choice to everyone. Your ideal space, your ideal everyday, begin right here.

# Quality you can feel with just a touch of water.

“ They’re always pursuing quality, so *I chose TOTO.* ”

**From the past and into the future, building each day by hand.**

However much things change, some stay the same. To TOTO this has always been the power of people, starting in 1946 with the goal of improving basin flush valves and the crafting of our first faucets. Skills and experiences have since passed between generations of artisans, in constant consideration of how to improve customers’ lives and release consistently innovative products.

Strict quality control even at the prototype stage, with design and manufacture accurate to 1/100 mm detail. Machine polishing technology inherited from human ingenuity. Everyday a deeper understanding and skill in manipulating water. For TOTO, nothing is more important than pursuing a fundamental standard in safety, beauty and comfort.

Now we strive to add new value, improving on core quality while delivering increasingly functional and sophisticated designs. With people power as our driving force, we continue to release products building a “tomorrow” and “everyday” the likes of which the world has never seen.

# Redefining comfort for your everyday life.

“ The technology was built with users experience in mind, so *I chose TOTO.* ”

**Engineering those important everyday moments.**

For a beautiful, comfortable everyday life, TOTO is developing a number of revolutionary technologies.

**Warm Spa**  
With a flow that envelops your body, this new kind of shower warms your body efficiently.

**Comfort Wave**  
A mix of large drops and normal spray lets you enjoy a shower of moderate intensity.

**Active Wave**  
Large drops means a more invigorating shower.

**Heat Protect**  
Technology that keeps the faucet surface cool. Safe and compact.

**Safety Thermo**  
Reacts quickly to prevent sudden temperature shifts. 6 times faster than conventional systems.

**Mini Unit**  
Unified exterior sizes for embedded faucets. Create a balanced, beautiful bathroom space.

**Comfort Glide**  
Control water flow in comfort. Love its long-lasting ease of use.

# The soothing sensation continues even after your shower ends.

“ The technology makes a more enjoyable shower, so *I chose TOTO.*”

## Making bath time more stimulating.

Wash off the day’s weariness. Welcome a new morning refreshed. Make this essential everyday experience not just a boring bathe, but a time of joy. TOTO’s new shower series has elevated design and functionality. Enjoy a truly enriching experience with complete relaxation of body and soul.

UNIVERSAL DESIGN

Embraced in warmth,  
relaxed and ready for rest.

**A brand new shower system. Water like a warm cloak.**

The feeling of a warm bath, in a shower. This is the power of the WARM SPA. A single pillar of warm water running quietly from the showerhead. When water hits the body, it follows the curves and envelops it without a splash. A completely new shower experience, warming your body efficiently.

**Control the water's flow.**

Utilizing a unique interior structure, the flow of water is controlled to provide a smoother shower.

**WARM SPA**

**Let no heat escape. Be warmer.**

Smooth water release means less heat loss. The water cloaks your body, quickly warming it. This feature is now available not only in conventional over head showers, but hand showers too.

**That Quality : Only TOTO**

The image depicts how the body warms up. The red area shows the warm parts of the body. Compared to conventional showers, it is evident that the WARM SPA warms the body more efficiently.

 **COMFORT WAVE**

**A newly developed nozzle for greater comfort.**

We developed our original shower nozzles with bigger droplets than conventional showers. Large drops of water swing and flow with power, delivering a comfortable stimulating bath while saving water. Feel refreshed with the moderate-intensity COMFORT WAVE, and invigorated with the high intensity flow of ACTIVE WAVE.

 **ACTIVE WAVE**

**Large droplets of water, rich and dense, giving a luxurious sense of comfort.**

**Stimulating to body and mind. Awakening to the senses.**

**COMFORT WAVE**

COMFORT WAVE uses a new nozzle to add larger drops of water to the shower, for a comfortable experience with a right amount of stimulation.

**That Quality : Only TOTO**

The image illustrates water penetration. While using a conventional shower, fine drops of water will bounce off the hair. Whereas, for COMFORT WAVE it will reach all the way to the scalp.

COMFORT WAVE

Conventional Shower

**ACTIVE WAVE**

ACTIVE WAVE uses the newly developed shower nozzle which is capable of producing larger water droplets. It provides a more vigorous, uplifting shower comfort than the COMFORT WAVE.

**That Quality : Only TOTO**

The image illustrates the comparison of the force of water. We examined the power of water flow against a pool of water. It shows that ACTIVE WAVE has a stronger flow than a regular massage shower.

ACTIVE WAVE

Conventional Shower

# A perfect showering experience with just one touch.

Choose your shower experience with a simple switch.

For the hand shower we installed a switch right at your fingertip, and for the over head shower the switch is located inside the showerhead. For the hand shower you can change easily between WARM SPA/ COMFORT WAVE/ ACTIVE WAVE, and for the over head shower between WARM SPA and COMFORT WAVE. Feel free to enjoy the perfect shower for your mood.

UNIVERSAL DESIGN

# Customize your shower, for a unique sensation.

Let luxury lead you to a new state of mind.

TOTO developed its multi-function shower for a more comfortable user experience. By quantitatively analyzing human sensation, we have researched and developed a shower with the optimum level of comfort. WARM SPA/COMFORT WAVE/ACTIVE WAVE are the pinnacles of this research. They will wash off negative feelings and guide you to a whole new state of mind. Wash away the weariness of the day, or wake up to a new morning with this shower. Let this time of luxury cleanse your soul.

# Create a pleasant shower experience that is safe for everyone.

An unique approach to every risk

For a pleasant shower, comfort is important but safety is essential. TOTO uses a unique structure developed through continuous research to prevent the various risks associated with taking a shower

[ Over head shower fall-prevention device ]  
**Multiple structures for fall prevention.**

When used over many years, the hardware shower-head mount can loosen or break, meaning the shower-head could potentially fall. By incorporating a unique safety feature, we can prevent this from happening.

[ Shower Holder ]  
**Stopping plate peeling and rotation before they start.**

**Holder ( Additional Resin Layer )**  
With our original safety design, we adopted a shower holder system from which the metal plating does not easily come off. Thus we can prevent injury caused by touching the area that would normally be exposed.

**Rubber Cap ( with protrusion )**  
The showerhead is prevented from unintentionally spinning or coming off of the holder because of the power of the water.

## Experience a bathroom where safety and beauty become one.

### Unique technology keeps the surface cooler.

When you use hot water, the surface of the faucet also gets hot. TO-TO's solution is a unique innovation in design. By covering the path of the hot water with a layer of cold, HEAT PROTECT is able to prevent burns when accidentally touching the fixtures.

### Industry-leading compactness brings sophisticated style.

We created the industry's smallest diameter of Ø45mm while providing superior insulation performance.

### That Quality : Only TOTO

The diagram shows the temperature of the fixture after letting water run for 30 minutes, the hot water temperature set to 60° and cold set to 15°. This demonstrates how the temperatures of the main parts of the faucet – those that make most contact with the human body – are prevented from rising.

■ ~20°C ■ 20°C-45°C ■ 45°C-60°C

## Safe, reliable water temperature means a more relaxing bathtime.

### Temperature swings, solved in an instant.

Let's say a family member uses water while you are in the shower. This can often create a sudden, unwanted increase in the shower water temperature. SAFETY THERMO prevents this from happening. A coil made of Shape-Memory Alloy (SMA Coil) reacts instantly to water temperature change, keeping the temperature from rising.

### Temperature control, 6 times stronger.

Our SMA coil detects water temperature instantly. Compared to a traditional wax type, it reacts to hot water 6 times faster (in-house comparison).

### That Quality : Only TOTO

Conventional Discharge Temperature

Safety Thermo Discharge Temperature

The graph shows water temperature and time. It is apparent that a conventional faucet experiences large temperature fluctuations. In contrast, the graph for SAFETY THERMO shows very little change, as temperatures are kept very steady.

 MINI UNIT

## Small and Flexible.

### The exact exterior you want.

Concealed faucets help to live up the bathroom. TOTO's MINI UNIT is a technology that gives you more space and freedom. We don't match the concealed system to each trim, instead we use a shared module. You can choose the functionality you need such as a single lever type, thermostat type, or touch button type, and also make choices based on design features such as circle or square fixtures.

### Easier to install. Less load on the frame.

A high degree of flexibility when installing the MINI UNIT is one of its most attractive features. We were able to achieve one of the industry's smallest and lightest bodies for the concealed system. It puts only a minimal load on the architectural frames and has improved manageability during installation. In order to conceal the unit, the wall only needs to be 97mm, and the system is able to absorb installation errors of ±13mm.

### Industry-leading miniaturization. Beauty in balance.

We shrunk the unit to one of the industry's smallest. The trims are also some of the most compact. In addition, our progress towards uniform sizes mean units can be used simultaneously to create a beautiful space. We also strived to make the trim as thin as possible. A bathroom of unity and style can be yours.

# Personalize a space to match your lifestyle.

## Match your lifestyle to one of three shower systems.

Besides water flow and design, you can choose the number of outlets from TOTO showers as well. From something simple to highly decorated, options are available based on your lifestyle and design preference.

### 1 OUTLET

#### The most simple.

A shower space designed with 1 shower outlet (choose between a hand shower, an overhead shower or a bath spout). It's the simplest way to enjoy a comfortable bath experience.

### 2 OUTLET

#### Enjoy a different kind of bath.

A shower space designed with 2 shower outlets (for e.g. a hand shower + a overhead shower). It depends on how your personal preference on how you wish to combine your showers for the best shower experience.

— Hot water — Cold water — Mixing water

3 OUTLET

The most varied way to have fun

A shower space designed with 3 shower outlets (handshower, overhead shower, bath spout). The system that will give you the most varied shower experience.

— Hot water — Cold water — Mixing water

Compatible trim variations

A varied product lineup. Choose functionality and design based on your preferences.

# Designs as individual as you are.

“ I was captured by the designs, so *I chose TOTO.*”

The right faucets for anyone’s needs.

Just as every single person is an individual, so to are their ideal faucet choice. TOTO is proud to introduce a new design series that makes choice more free and enjoyable for all. Every faucet is beautiful, fresh and easy to use, polished to the last details. We are certain TOTO faucets will be appealing.

 COMFORT GLIDE

**Easy to use,  
for a lifetime of comfort.**

**Ease of use, based in sensation.**

Comfort. For TOTO, this does not simply mean comfort of movement. Ease of use, when it lasts a long time, becomes comfort in itself. For this purpose, TOTO has developed the internal valve based on users' touch. Designed from the ground up to provide a fundamental comfort in operation.

**Special coating for prolonged comfort.**

The ceramic disc, a core valve component, is covered with a special DLC (Diamond Like Carbon) coating. This ensures long-lasting quality over conventional faucets that use a greased valve.

**Precise flow control, exclusive to TOTO.**

Our exclusive technology means new functionality. We took the core component of the valve, the ceramic disc, and customized its shape for ease of use. Compared to conventional faucets, it's easier to control water flow when just a little is required, such as when you are washing a contact lens. Because you can achieve the right amount of water flow instantly, it helps conserve water. \*Adjustable flow functionality is only available for lavatory faucet for deck mounted types "

## Smart Design, Fascinating Forms.

### Refined design, down to the last detail.

The faucet handle and body share the same axis, one seamless shape for a beautiful gilt reflections. Installing the tip of the spout inside means it is easier to clean and gives a smart silhouette. With the smallest detail, TOTO have a unique line up faucet series.

## Freedom to design, your unique personal space.

### Mix & Match to your taste.

In addition to the standard Polished Chrome, we offer Brushed Nickel, Polished Nickel, Brushed French Gold and Polished French Gold with a total of 5 color choices. The color variations capture current trends and help create spaces fit for various personal preferences.

WASHBASIN

**Conspicuous in its absence, a space of ultimate luxury.**

ZL SERIES

Achieving a thin edge of just 3mm. One of the world's thinnest spouts and beautifully contoured lines brings you ultimate silence. It's as thin as a steel plate, and its sleek appearance will fit seamlessly into any space. In order to achieve this, we used stainless steel welding technology, an unusual method for faucet production. This innovative approach made it possible to achieve a thickness unattainable by ordinary methods. We put all of TOTO's knowledge and technology into creating a beautiful finish to the faucet, such as inconspicuous joints and a polished, mirror-like surface. Of course, we achieved a full, strong water flow, fitting for such a high-end faucet series. Quiet yet impactful, we bring you a new design that combines these seemingly opposing concepts.

## Decorate your space with the new standard of beauty.

### The union of taut curves and edges.

With the top's surface taut curves, smooth spout surface and sharp line edges : such variation in the silhouette gives the shape an unique presence. The edge and smooth flow surface represents an exquisite craftworks that is only achievable by a master craftsman. Looking well composed and elegant, it is an advanced standard series that is suitable for the new generation.

## Organic forms for your nature well-being.

**Delicate elegance. Quality and Volume.**

GO series pursued an organic form, like a plant and straightens itself gracefully when bathed in sunlight and soaked in the water from its roots. It has a gentle, elegant and exquisite silhouette that enlivens the space gracefully.

## Geometric shapes that sparkle.

### See elegance in reflections.

The sharp edge of the spout and handle gives a proper weight and balance to this series. In contrast, the top panel incorporates curves and a soft slope, making it look elegant. Similarly to a sparkling glass, it boasts a splendid presence and impression. Its geometric forms and the beautiful expression hidden within the sparkles.

## Set the standard for everyday beauty.

**Smooth shapes that will become a standard.**

A simple design with a modern twist. This GS series fits the modern living space. It is the transformation of geometric shape into smooth organic lines. A soft panel bulge transformed the flow of the surface water. We pursue a simple look that would be favourable for future generations.

## Classical elegance for a new today.

Modern approach, classical touch.

A hint of nostalgia with a modern vibe. Creating a look and form where two different styles can work together. A beauty that exists only in this modern society. Simple but with a tinge of classical elegance.

# Safety with you in mind.

- Face Plate**
- By using a lock screw to lock it in place, we minimized the contact area.
  - A gap between the cover and inside minimizes the contact area.
- Attachment**
- By using SUS as the material, we lowered the rate of heat conductivity.
  - By creating grooves, we lessened the contact area.

■ ~45°C ■ ~50°C ■ 50°C ■ 90°C

Faucet surface temperature controlled through safe construction and materials.

When using hot water, perhaps when adding water to a bath, the heat can travel through to the handles. Not only does this increase the risk of burns, but may make the handles too hot to turn off the water. For TOTO's 2 handle faucets we analyzed how heat reaches the handle, and adopted a design and materials that mean less heat is conducted. Our new 2 handle faucets (sinks and bathtubs) all come with this high-level safety feature.

## That Quality : Only TOTO

We imagined the worst case usage scenario, and worked back from there to determine the required surface temperature. For example, even when 90 °C hot water passes through, the area that comes into hand contact will remain 45°C (close to shower temperature) or less.

### For Lavatory Space

**ZL Series TLP02201B**  
2 Handle Lavatory Faucet w/ Pop-Up Waste (3 Holes)

**GA Series TLG04201B**  
2 Handle Lavatory Faucet (3 Holes)

**GO Series TLG01201B**  
2 Handle Lavatory Faucet w/ Pop-Up Waste (3 Holes)

**GR Series TLG02201B**  
2 Handle Lavatory Faucet w/ Pop-Up Waste (3 Holes)

**GS Series TLG03201B**  
2 Handle Lavatory Faucet w/ Pop-Up Waste (3 Holes)

**LB Series TLS01201B**  
2 Handle Lavatory Faucet w/ Pop-Up Waste (3 Holes)

**LN Series TLS02201B**  
2 Handle Lavatory Faucet w/ Pop-Up Waste (3 Holes)

### For Bathtub Space

**ZL Series TBP02201B**  
Bath Filler (3 Holes)

**ZL Series TBP02202A**  
Bath & Shower Set w/ Hand Shower (4 Holes)

**GA Series TBG04201B**  
Bath Filler (3 Holes)

**GA Series TBG04202A**  
Bath & Shower Set w/ 1 mode Hand Shower (4 Holes)

**GO Series TBG01201B**  
Bath Filler (3 Holes)

**GO Series TBG01202A**  
Bath & Shower Set w/ 1 mode Hand Shower (4 Holes)

**GR Series TBG02201B**  
Bath Filler (3 Holes)

**GR Series TBG02202A**  
Bath & Shower Set w/ 1 mode Hand Shower (4 Holes)

**GS Series TBG03201B**  
Bath Filler (3 Holes)

**GS Series TBG03202A**  
Bath & Shower Set w/ 1 mode Hand Shower (4 Holes)

**LB Series TBS01201B**  
Bath Filler (3 Holes)

**LB Series TBS01202B**  
Bath & Shower Set w/ 5 modes Hand Shower (4 Holes)

**LN Series TBS02201B**  
Bath Filler (3 Holes)

**LN Series TBS02202B**  
Bath & Shower Set w/ 5 modes Hand Shower (4 Holes)

# SHOWER TECHNOLOGIES

## AERIAL SHOWER

Aerial Shower aerates the water to make the shower experience more enjoyable. You feel as though you're standing below a particularly full stream without any increase in the usage of water.

### Advantages

Comfortable shower experience, less water consumption

### MECHANISM

A secret chamber mixes the air into the water without slowing down the flow. Results in full coverage shower that uses less water.

## AERIAL PULSE

TOTO fixed shower heads are equipped with Aerial Pulse technology offering a voluminous flow with little water consumption. Air is drawn in through the shower head and added to the water. The shower head pulses the enlarged water droplets as they fall to give a relaxing experience.

### Advantages

A more enjoyable shower experience, less water consumption

### MECHANISM

The pulsing effect is created by rapidly altering the concentration of air inside the water droplets.

## GYROSTREAM

The bathroom is a space where health and well-being take centre stage. Gyrostream offers the same relaxing effect that you'd find in a bathtub. Rotating nozzles deliver a stimulating massage that spreads its effect over a wide area of the body.

### Advantages

Massage function, consistently keeps the body warm

### MECHANISM

Water sprays out through nozzles that rotate in two different directions resulting in a powerful flow of water. These water vortices provide an invigorating massaging effect.

## SELF POWER

TOTO automatic faucets no longer need power from an electrical outlet. The energy from the flowing water is used to charge a battery that powers the faucet. The faucets require practically no maintenance.

### Advantages

Easy to use, reduces physical contact, requires no external power supply, uses little energy

## AUTO FUNCTIONS

The automatic faucets feature an almost invisible sensor in the spout. It registers every hand movement precisely and is tamper-proof.

### Advantages

Ease of use, no need for direct contact with the toilet, regulates energy consumption

100<sup>th</sup>  
ANNIVERSARY

“INNOVATIVE”

DNA

throughout the Next Century

In May 2017, TOTO ushered in the 100th anniversary of the establishment. We look forward to tomorrow and the future, to provide people beyond expectations “every day”.

1917

**1917**

The company is established by Kazuchika Okura under the name, TOYO TOKI CO. LTD. which is later renamed TOTO.

**1923**

The Great Kanto Earthquake strikes devastating Tokyo. A sewage system is built during the reconstruction, leading to a rapid growth in demand for sanitary wares.

1923

**1946**

After World War II, TOTO begins manufacturing metal fittings and faucets in addition to ceramics.

1946

**1980**

TOTO launches WASHLET, providing consumers with a whole new level of cleanliness and comfort.

1980

1993

**1993**

NEOREST toilet is launched incorporating WASHLET with a comprehensive range of TOTO's innovations. It brings with it the fullest realization yet of the principle of Clean Technology.

**2008**

TOTO Asia Oceania Pte. Ltd. is established as the regional headquarters of the Middle East, South Asia, South East Asia, and Oceania.

2008

**2013**

TOTO Asia Oceania launches its first Technical Center in Singapore. It serves to introduce TOTO's latest products and technologies to customers.

2013

**2015**

Since the very first WASHLET model in 1980s, new innovation and features have been continuously added culminating the latest model that is the epitome of comfort and hygiene. For the past 37 over years, TOTO has been developing every part of WASHLET to perfection.

2015

2015

**2015**

The TOTO Museum in Kitakyushu was opened on the occasion of the company's 100th anniversary and showcases the evolution of the business and its products. The museum highlights the historical landmarks that changed Japanese bathroom culture, including the move from rural to city living. Old toilet seats are on display, as well as exquisite porcelain tableware that the company used to produce as a side business in the past. TOTO aims to promote the appeal of this complex as a point of contact with visiting customers and clients. It positions as a landmark that disseminates information about the TOTO brand from Kokura, the birthplace of the company, to people all around the world.

2017

**2017**

TOTO exhibited at the ISH2017 - the world's large international trade fair in Frankfurt, Germany for baths, toilets, buildings, heating and cooling, air conditioning, and renewable energy from March 14th, 2017 to March 18th, 2017. TOTO began exhibiting in 2009, and this is the fifth exhibition with the new theme - "Life Anew." Not only you will be able to experience the unique technology of TOTO at the venue, you will also be able to physically touch our latest products. Through the exhibition, TOTO will share the message on its 100 years of evolution in TOTO's unique technological innovation, and for the next 100 years.

**Our deep feelings for people and their life have remained unchanged since our foundation.**

In 1912, in an era when there were as yet no sewage facilities in Japan and thoughts of hygiene were still nascent, Kazuchika Okura, the founder of TOTO, was deeply impressed by the cleanliness of the ceramic toilets he saw in the West, and he took up the challenge to create a national hygienic ceramic industry based on the idea of "improving the lifestyle of the Japanese people". Subsequently, at the end of five years' research, he succeeded in mass-producing Japan's first hygienic ceramic toilet. This is exactly what we could call the beginning of a new culture.

TOTO's manufacturing philosophy is bonded deeply to that moment create when new lifestyle values were created.

Further, these ideas have continued without pause until today.

TOTO remains dedicated to delivering products that offer inclusive functionality and respect for the environment.

We embrace these values every day to create a future that surpasses all expectations.

To ensure we secure and retain the trust of customers and society as a whole, we have formulated a mission with three key elements.

We will implement our Global Environmental Vision to support the mission.

### Water, Earth & a better Tomorrow

At TOTO, we're committed to improving life and the environment for a thriving future. Our production processes and products save water and energy, while reducing impact on the environment. We provide cleanliness and comfort while building relationships that enrich life. Water, Earth & a better Tomorrow. All our group companies are dedicated to building a healthier and more sustainable tomorrow.
