Life Anew

TOTO

Life Anew

To create a culture of comfortable healthy living.

Since our founding, we have continuously pursued innovations that offer greater wellness and comfort to daily life.

Honoring the trust that our customers and society place in us, TOTO remains dedicated to delivering products that offer inclusive functionality and respect for the environment.

We embrace these values every day to create a future that surpasses all expectations.

A VARIETY OF COLORS & FINISHES

Many colors and finishes to brighten up carefully designed spaces.

The colour which is finished due to PVD manufactured method added by layer on the surface, has both beauty and strength and it adds rich colour to the bathroom space.

ZA series

Lightness and dignity in a natural shape for a timeless design.

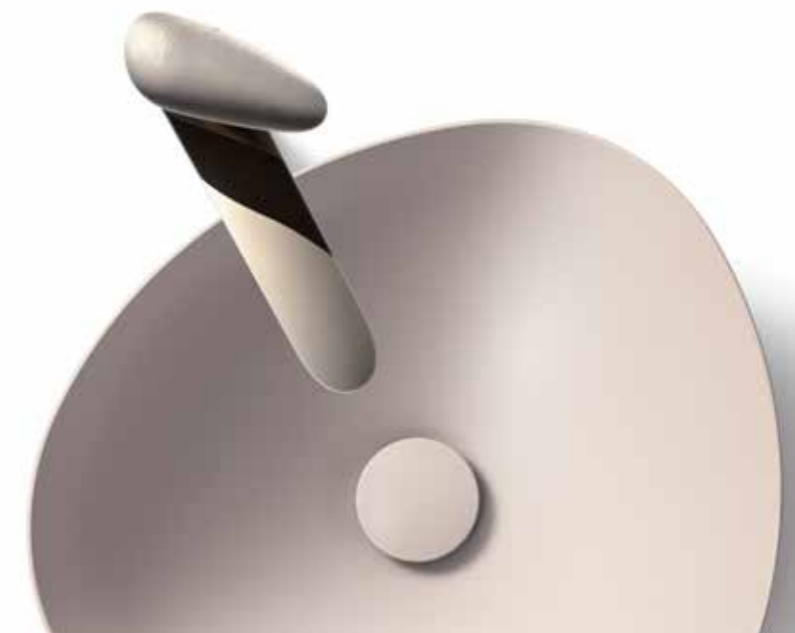

Sharp edges, the beauty of generous curves, and the contrast of polished and hairline finishes combine in a modulated design that achieves balance of a different order. The handle, asymmetrically shaped like a small stone, is beautiful from any angle and settles in rhythmically.

ZA series

An asymmetrical faucet handle and washbasin bowl in beautiful harmony

With the thinness of a flower petal, the organically shaped ZA series handle matches the delicate curve of the washbasin bowl in a way that suggests a breeze or a melody, further enhancing the

A precise, ultra-thin form delivers a tranquil, keenly framed beauty.

The smooth, flat, mirror-like surface and ultra-thin edge generate a contrast in two dimensions whose overwhelmingly delicate look – made possibly by advanced processing technology – shares a design philosophy with the square-lined, sharp-edged washbasin bowl.

Enhancing flow and gesture,
the design fits the sharp washbasin bowl.

A bundant water flows like a waterfall from the horizontal spout, while the handle can be operated gracefully with a gentle pinch of the fingers. Beautifying even the flow of water and human gestures, the design resonates with the sharp, square washbasin bowl to create a richer space.

The beauty of traditional craft in
a characteristic sculptural form.

The sharp, taut V-shaped edge that extends up to the end of the spout generates multi-sided reflections revealing a range of expressions. The polished gold finish further accentuates the distinctive design for a richer, more luxurious look that helps generate extraordinary, inspirational spaces.

FAUCET

The breadth and symbolism of classical design in a contemporary form.

With the composure of an elegant serif typeface and a base shaped to reconfigure the stability at the heart of traditional architecture, we pay homage to designs that have stood the test of time while transitioning to a modern design that reflects the present day.

The two-handle design captures the rich aesthetic of an elegant hotel.

Aligned along a straight line, the faucet and handles present a strikingly consistent design. The horizontal line crossing each base serves as a boundary that tightens the gaps between them. The low center of gravity adds a dignified accent to interior spaces without getting in the way.

FAUCET

Bold parallel arches
and reflective curves in
an assertive design.

Suggesting the majestic dignity of outstanding architecture, the shape combines – in the arch of its spout and a columnar body – elements seen in traditional shrine gates. Its imposing presence is further accentuated by the highlights that trace its edges.

The stately squareness and beveled edges imbue a space with dignity.

Following edges so gently beveled you'll want to draw your finger along them, the balanced highlights accentuate the shape of the gradually narrowing spout and the sleek silhouette of the whole.

Flowing and curvaceous,
the organic form leaves
a graceful impression.

With a spout and handle that grow and a body defined by curves, the faucet suggests a plant bathed in sunlight, reaching higher and higher as it grows, with a soft, sculptural beauty that sustains both space and user.

GR series

FAUCET

The weight of a metal ingot cut at right angles tightens up a space.

The design contrasts found in this marriage between sharply honed edges and the gentle curves at the top of the spout and handle generates a regal air while further bolstering its imposing sculptural beauty.

Matte Black 

Stunning beauty and remarkable hardness from PVD

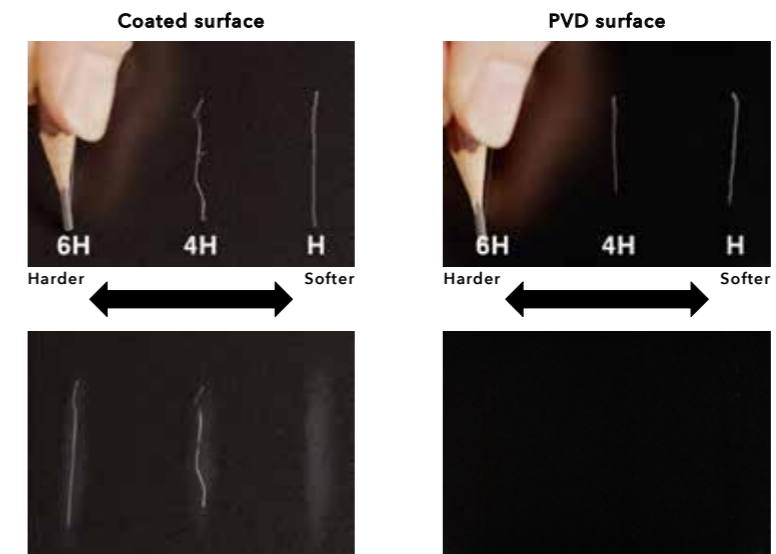

This stunning Matte Black finish adds sophistication and depth to our elegant faucet designs. Its silky sheen and delicate color gradation create a sense of luxury like no other.

Our "shot-blast processing" forms a chrome plating by physical vapor deposition (PVD) on faucet fixture surface irregularities. The result is a gorgeous Matte Black finish with a lustrous sheen and fine color nuances.

PVD finished surfaces are harder than coated surfaces.

Compared to coated products, PVD products are less prone to peeling or scratches that would reveal the base material on the surface.

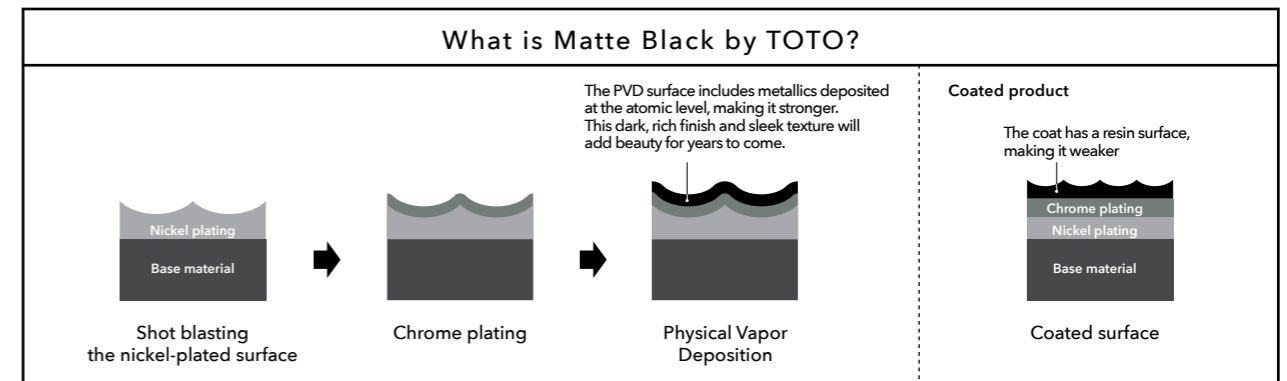

Pencil testing for surface hardness

PVD Matte Black finish won't be scratched even with a hard pencil.

Test conditions:
Pencil testing (conformant with JIS K5600 5.4, ISO 15184, ASME D3363, and GB T6739) was performed on the coating/PVD in our test site.

What is Matte Black by TOTO?

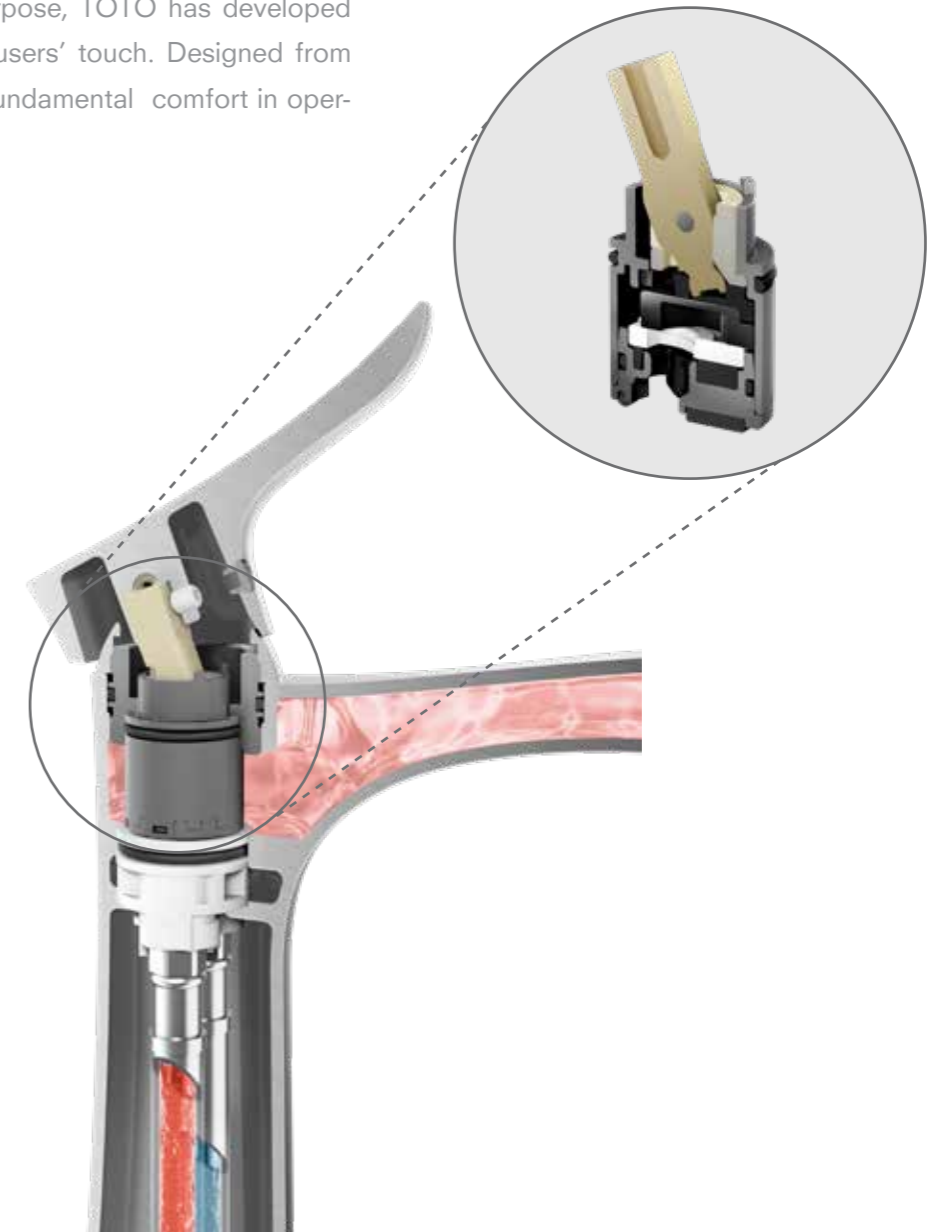

Everyday ease-of-use that is grounded in the senses.

Comfort. For TOTO, this does not simply mean comfort of movement. Ease of use, when it lasts a long time, becomes comfort in itself. For this purpose, TOTO has developed the internal valve based on users' touch. Designed from the ground up to provide a fundamental comfort in operation.

Special coating for prolonged comfort.

The ceramic disc, a core valve component, is covered with a special DLC (Diamond Like Carbon) coating. This ensures long-lasting quality over conventional faucets that use a greased valve.

Precise flow control, exclusive to TOTO.

Our exclusive technology means new functionality. We took the core component of the valve, the ceramic disc, and customized its shape for ease of use. Compared to conventional faucets, it's easier to control water flow when just a little is required, such as when you are washing a contact lens. Because you can achieve the right amount of water flow instantly, it helps conserve water. *Adjustable flow functionality is not available on side-handle models.

Unifying various hotel spaces with a discerning design.

Faucet fittings in public areas and guest rooms can be unified with the same design sense.*
From public to private spaces, you can use just the right faucet to coordinate spaces in the hotel.

*Compatible series: GE, GC, GM

GM series

A graceful arch design echoing traditional architecture presents an extraordinary space.

Touchless faucet (public area)

Handle faucet (private room)

GE series

A sharp and beautiful design reminiscent of a Japanese sword asserts its presence in the area.

Touchless faucet (public area)

Handle faucet (private room)

GC series

A transitional design that incorporates classical elements into simple forms, richly producing the stylistic beauty of a hotel

Touchless faucet (public area)

Handle faucet (private room)

The security of TOUCHLESS

A new world. A better way to clean.

TOUCHLESS

Sensor-activated technologies make bathrooms more contact-free and therefore more hygienic. TOUCHLESS faucets guarantee the utmost in cleanliness.

In addition to ensuring the ultimate in hygiene, these smart-sensor faucets conserve water by releasing it only when activated.

This is especially beneficial for faucets in public restrooms, as these contact-free faucets considerably reduce the transmission of bacteria, germs and viruses.

Functions and durability that prevent malfunction and troubles due to misuse or vandalism.

A wide variety of people utilize public spaces, from small children to adults, and misuse or vandalism can lead to malfunctions and other troubles. TOTO's automatic soap dispensers have functions and durability to minimize breakdowns and troubles, regardless of the circumstances.

Designs that prevent liquid soap from getting on people.

Children sometimes play with automatic soap dispensers, and even adults may press against the spout, having confused them with push-type dispensers. We therefore designed our spouts with a groove so that when liquid soap is dispensed, if the tip is covered soap will squirt out toward the back, not in a way that will cause it to spray on the user.

A design that makes liquid soap squirt out toward the back

A spout structure designed for strength, difficult to break.

Assuming that strong forces might be applied to the spout tip, we inserted a pipe within the base for increased strength. Even if the spout is damaged, this prevents cracking and breaking at the base.

TLE07 series

TLK07001G
 Touchless Soap Dispenser
 DECK MOUNT / Normal
 AC 100-240V Operated
 Soap Volume: 1.2ml
 Size: Ø40*140D*77H mm

TLK07002G
 Touchless Soap Dispenser
 DECK MOUNT / Semi-Tall
 AC 100-240V Operated
 Soap Volume: 1.2ml
 Size: Ø40*140D*180H mm

TLK07003G
 Touchless Soap Dispenser
 DECK MOUNT / Tall
 AC 100-240V Operated
 Soap Volume: 1.2ml
 Size: Ø40*140D*220H mm

TLE08 series

TLK08001G
 Touchless Soap Dispenser
 DECK MOUNT / Normal
 AC 100-240V Operated
 Soap Volume: 1.2ml
 Size: 38W*140D*83H mm

TLK08002G
 Touchless Soap Dispenser
 DECK MOUNT / Semi-Tall
 AC 100-240V Operated
 Soap Volume: 1.2ml
 Size: 38W*140D*188H mm

TLK08003G
 Touchless Soap Dispenser
 DECK MOUNT / Tall
 AC 100-240V Operated
 Soap Volume: 1.2ml
 Size: 38W*140D*226H mm

TLE09 series

TLK09001G
 Touchless Soap Dispenser
 DECK MOUNT / Normal
 AC 100-240V Operated
 Soap Volume: 1.2ml
 Size: Ø48*134D*130H mm

A Global Support System You Can Count On

TOTO provides comprehensive customer support through our dedicated global support team who draw on their deep knowledge of our broad global product line-up to provide assistance at all stages of a project. For example, they can assist you by explaining TOTO products' features and benefits or suggesting product options during planning or helping make initial selections at a construction site.

At any stages of your projects' development, you will have the advantage of TOTO's global customer support network.
